

The Nevada Sagebrush Ecosystem Program (SEP)

Greater Sage-Grouse Draft RMP Amendment and Draft EIS

Sagebrush Ecosystem Technical Team (SETT)
April 17, 2025

BLM ARMPA Opportunity

- BLM communicated that Alternative 5 will be the final chosen alternative
 - But we can decide on State-specific circumstances to adjust the preferred alternative to fit Nevada's State Plan better
 - Will not accept anything that creates NEPA Supplementals (More NEPA required which pushes the timeframe out 1-2 years)
- BLM hopes to have this done this year

Governor's Concerns

- Align with Nevada Plan
- Align Maps with Nevada
- Disturbance Caps
- Incorporate Habitat Connectivity
- Balance Renewable Energy with Habitat Conservation
- Adequately Address Wildfire and Invasive Species

QUESTIONS?

THANK YOU!
