

# Greater Sage Grouse Adaptive Management Trigger Summary

Sagebrush Ecosystem Technical Team

**All meetings are scheduled for 5:30 – 6:00 PM, see below for date and locations**

Representatives from the Sagebrush Ecosystem Team will give a short presentation on the trigger decision process, and answer questions related to the local stakeholders (permittees, local conservation groups, federal and state employees) involvement in a causal factor analysis and development of management recommendations. Please join us in this first step in an adaptive management process.
