3. REVIEW OF REGULATION NAC 232.400-232.480 –

Kathleen Steele provided an overview of the current regulations and some of the more recent changes; specifically noted that LCB has not updated the official regulations with the changes from 2025, even though the regulation changes are active and enforceable.

4. PUBLIC COMMENT

Bill Ehni: Recommend a sunset clause for the Sagebrush Ecosystem Program and the Sagebrush Ecosystem Council for when the Greater Sage-grouse and sagebrush have been properly conserved, with an acreage threshold or population threshold for when the clause would go into effect. Posed the following questions; what would happen to projects with the dissolution of the SEC and SETT and if the property is impacted by wildfire, will the property be returned to its owner without penalty or restrictions?

No further public comment

5. CLOSE OF MEETING

Kathleen Steele closed the meeting and offered public comment via email and an anonymous form through the Sagebrush Ecosystem Program website.
