WestTEC Study

10-year, west-wide transmission needs study

A first-of-its-kind, bipartisan study, WestTEC identifies actionable transmission projects that enhance reliability, improve economic efficiency, and support state goals

20-year study by January 2027

Permitting Alignment & Coordination Task Force (PACT)

PACT aims to accelerate development of the transmission projects identified in the WestTEC study by building on proven models of successful state-agency collaboration to streamline the permitting process.

NV GOE, in coordination with the Governor’s Office, is Nevada’s PACT representative.

Partnership with SEC and SETT will be key.
